INTEGRATED ENVIRONMENT, HEALTH AND SAFETY POLICY

AMA S.r.l. intends to develop its business by aiming to satisfy the needs and expectations of all its Stakeholders (such as shareholders, investors, suppliers, workers, customers, communities.) Environment as part of its processes for managing both the business and operational aspects.

To this end, it has chosen to adopt in its offices Management Systems respectively compliant with the UNI ISO 45001 and UNI EN ISO 14001 standards.

AMA S.r.l., having evaluated its operating context and its strategic directions, aware of the importance of taking care of the Health and Safety of its workers and of the importance of respect and protection of the Environment, with a view to continuous improvement, proposes to develop, document and maintain its Management Systems in an appropriate manner with respect to the context in which it operates and the expectations of the Stakeholders, applying the following principles:

- to ensure that its staff are fully and consciously involved in the implementation of the Management Systems;
- ensure the awareness and training of staff, spreading the concept that the responsibility in the management of Health and Safety at Work and the Environment concerns the entire company organization, at all levels, each according to their own powers and skills;
- undertake to involve and consult workers, also through their Representatives for Health and Safety at Work, in the process of organization, planning and control of the Management System for Health and Safety at Work;
